

AX-HRT-K

AX Hydraulic Retrieval Tool Kit

Pressure ratings up to 6000 psi (413 bar)

Temperature Ratings up to +260°C (+500°F)

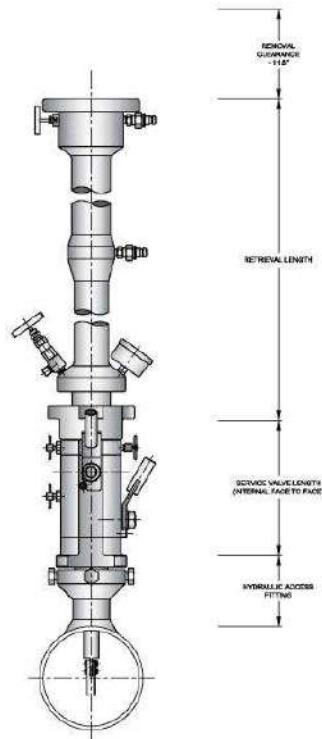

Axess Hydraulic Retrieval Tool Kit

Axess offers a Hydraulic Retrieval tool kit that can be used to safely and efficiently insert probes/coupons/sensors/chemical injection assemblies or retrieve them from a process whilst operating under full pressure

Axess corrosion provide full training on maintenance and operation of both Retrieval Tool and Service Valve. For more information contact an Axess Representative

Key Features

- 6000 PSI Rating / Hydraulic Internal moving parts
- Complete kit consisting of a service valve, hydraulic pump, hoses, and other accessories such as a steel brush and brass hammer
- Full compatibility with systems manufactured by other suppliers
- Available in different stroke lengths

Hydraulic Retrieval Tool for Single Service Valve		
Probe Length (Inches)	Part Number	Tool Length (Inches)
5.00"	AX-HRT-20	20"
7.85"	AX-HRT-24	24"
11.75"	AX-HRT-30	30"
15.75"	AX-HRT-36	36"
19.50"	AX-HRT-42	42"
23.50"	AX-HRT-48	48"
27.50"	AX-HRT-54	54"
31.50"	AX-HRT-60	60"
35.25"	AX-HRT-65	65"
39.25"	AX-HRT-71	71"

Axess also have a team of highly experienced, trained, and competent field engineers and can offer both online retrieval, commissioning, and data services to our customers. Please visit www.axess-corrosion.com/resources or contact an Axess Expert for further information.
