

AX-TELESCOPING RETRIEVAL TOOL

AX Mechanical Telescoping Retrieval Tool

Pressure ratings up to 6000 psi (413 bar)

Temperature Ratings up to +260°c (+500°f)

Axess Mechanical Telescoping Retrieval Tool Kit

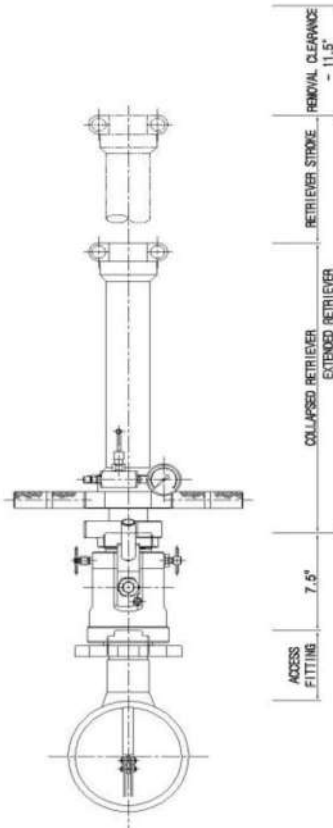

Axess offers a telescoping retriever tool that can be used to safely and efficiently insert probes/coupons/sensors/chemical injection assemblies or retrieve them from a process whilst operating under full pressure.

Axess Corrosion provide full training on maintenance and operation of both Retrieval Tool and Service Valve. For more information contact an Axess Expert.

Key Features

- 6000 PSI Rating / Telescoping parts
- Positive indication of full insertion or retrieval of plug/sensor assembly to avoid operation errors
- Full compatibility with systems manufactured by other suppliers
- Available in different stroke lengths

Part Number	Stroke Length (Inches)	Collapsed Retriever Length (Inches)	Extended Retriever Length (Inches)
AX-TRT-14	14	21.5	35.5
AX-TRT-18	18	25.5	43.5
AX-TRT-25	25	32.5	57.5
AX-TRT-37	37	44.5	81.5
AX-TRT-49	49	56.5	105.5

Axess also have a team of highly experienced, trained, and competent field engineers and can offer both online retrieval, commissioning, and data services to our customers. Please visit www.axess-corrosion.com/resources or contact an Axess Expert for further information.
